## Buyer and procurement context

Alderwick University is an invented education account in Yorkshire. The fixture describes 11 sites with fragmented service coverage.

Procurement drivers: Reliable compliance evidence; Fewer supplier hand-offs; Predictable annual cost

## Scope and delivery fit

Asset survey; planned preventive maintenance; reactive support; compliance reporting

Potential fit requires regional capacity and accreditation validation.

## Competitor and incumbent assessment

Incumbent and competitor identities are unknown. Do not name or attribute claims without evidence.

## Recommended pursuit strategy

Consider pursuit after evidence review

Validate scope and buyer requirements, resolve delivery evidence gaps, then conduct a recorded bid review. This is a rule-based next step, not a verified win strategy.

## Risks and unresolved questions

Recorded commercial risk: Amber.

Evidence required: Confirmed engineering capacity

Evidence required: Incumbent identity

Evidence required: Priced asset register

Evidence required: Agreed mobilisation plan
